

Weymouth Residents in 1925

Compiled by Scott Benson

This listing is a best estimate of who lived in Weymouth when the 3-room schoolhouse was built in 1925. The list is assembled from deed records and US Censuses from 1920 and 1930. Deed records provide accurate information on who owned the property at what time. Many houses in Weymouth may have housed renters. Censuses identify who was renting in 1920 and 1930, but any number of people might have moved out/in during those 10 years.

This list uses the boundaries of the "Weymouth Special School District" that existed at that time. Two maps are provided below. The first encompasses the entire school district. On the north, it is bounded by Brunswick Hills Township; on the east, Granger Township; and on the south, Hood Road. The west boundary is defined as the west line of Township Lots 4 and 15 (which is the line of Huffman Road if extended north beyond Remsen Road), the east portion of Lot 22 (on which houses were on Hamlin Road), and the west line of Lots 33 and 38. The second map focuses in on the more populated center of Weymouth. These maps used the graphics from the 1897 Atlas of Medina County as a starting point. There were some properties in Brunswick and Granger Township that were included in the special district; these were properties that were either connected to properties in Medina Township, or had common owners.

Note that the current configuration of Route 3, and I-71 did not exist in 1925. Several properties at what was then the intersection of Hamilton Road and Route 3 were lost to the intersection of I-71 and Route 3. The Route 3 re-route to the north of Remsen was mostly through empty property.

Also note that ages and name spellings may have varied from Census to Census; these have been or could be clarified with further research.
